PROFESSIONAL SUMMARY

Data Analyst with hands-on experience building end-to-end analytical solutions using Excel, Power BI, and SQL. Completed relevant projects with findings published on GitHub. First-Class graduate with a strong quantitative research foundation, SPSS statistical modelling experience, and a track record of producing structured, decision-ready reports for non-technical audiences. Actively seeking an entry level analyst role where technical skills and analytical curiosity can drive immediate business value.

TECHNICAL SKILLS

Data Analysis: SQL (Joins, CTEs, Subqueries)MySQL, POSTGRESQL , Excel (Power Query, Pivot Tables, XLOOKUP, Macros), SPSS.

Visualization: Power BI (DAX, Interactive Dashboards), KPI Design.

Soft Skills: Data Storytelling, Stakeholder Communication, Documentation, Problem Solving.

TECHNICAL PROJECTS

TradeZone E-Commerce Performance Analysis | SQL | PostgreSQL

April 2026

github.com/Oluwatosin-ogunwale/tradezone-analysis

- Analysed ₦984.7M in revenue across a Nigerian e-commerce platform to surface growth risks and operational priorities ahead of the 2025 planning cycle. Wrote SQL queries to investigate revenue trends, customer conversion rates across 5 states, seller performance, and data quality issues across 2023–2024 transaction data.
- Identified a fragile single-engine growth model driving 1,544% YoY revenue growth with no repeat purchase behaviour; quantified that a 10pp improvement in 30-day conversion would generate approximately ₦10.5M in incremental revenue;
- Uncovered that speed and revenue performance were almost entirely separate seller groups; flagged two data integrity issues affecting 97 order items and 9.09% of order amounts with transparent exclusion decisions and reconciliation recommendations.

End-to-End Coffee Shop Analytics: Profitability, Demand & Customer Insights Feb 2026

github.com/Oluwatosin-Ogunwale/CoffeeShopProject

- Analyzed a 3551 orders retail dataset to identify underperforming products and business health. Identified a 2.9% profit margin for the business in an industry with a 2.5% - 6.8% profit margin range diagnosing an average business profitability.
- Uncovered a critical pricing anomaly where Robusta (the best-selling type) was the lowest profit generator, while Liberica Light Roast delivered the highest margin directly informing a repricing recommendation.
- Identified that the 2.5 liter cup size generates 30% of total profit despite equal order volume, flagging an undermarketed high-margin product opportunity.

Women Techsters Initiative | Data Analysis Group Project Participant

Oct 2023

- Analysed multi-country WHO datasets to identify age- and gender-based trends in unintentional poisoning across Africa, supporting SDG 3 monitoring and producing evidence-based recommendations.
- Cleaned and validated large datasets, improving data accuracy and analytical efficiency by approximately 20%.
- Built interactive dashboards and visual reports in Excel and Power BI, translating complex public health data into actionable insights for a collaborative team presentation.

WORK EXPERIENCE**Hyst Global Business Limited, Ogun State**

Feb 2025 – Dec 2025

Administrative Officer (NYSC)

- Prepared and reviewed monthly operational and performance reports, enabling management to track business activities and make data-informed decisions.
- Coordinated workflows across 3+ departments within a 10-member cross-functional team, ensuring timely task completion and full process compliance.
- Maintained structured documentation and filing systems, improving record accuracy and reducing information retrieval turnaround time.

EDUCATION

Obafemi Awolowo University

Sept 2024

Bachelor of Agriculture in Agricultural Extension & Rural Development | **First Class Honours****CERTIFICATIONS AND AWARD**

- Introduction to Data Science, Cisco Networking Academy, 2026
- Functions for Manipulating Data in PostgreSQL (SQL), DataCamp, Nov 2025
- Data Analysis Certificate, Women Techsters Initiative, 2023
- Programming Essentials in Python, Cisco Networking Academy, 2023
- Entrepreneurship, Cisco Networking Academy, 2023
- Introduction to Cybersecurity, Cisco Networking Academy, 2022
- MTN Scholarship for Science and Technology (2020–2024)
